

# As Featured In The Sunshine Coast Daily "ID card the latest safety idea for kids."

The ChildSafe ID Card is invaluable should your child become lost, missing or is has an accident. Especially designed to help quickly identify and find your child, this quality ChildSafe ID card uses a digital photo, descriptive details, medical details and emergency contacts stored on a high quality double-sided, plastic card. It will become the most valuable card in your wallet.

- Whether they are lost in a supermarket, a shopping centre or while on holiday, this card makes it quick and easy to give necessary information and a photo to people who can help. The ChildSafe ID Card is durable and easily carried by parents.
- Additional cards are available for grandparents, caregivers and when older, for the child.
- By combining a ChildSafe ID Card with our FREE Secure Online Photo Service (SOPS), faster help can be obtained for your child at anytime anywhere in the world.

*"My 3-year old disappeared at Australia Zoo the other day, I panicked, all my reason had gone. The (ChildSafeID) card would have been my voice of reason when I didn't know what to do, to help me to get the people nearby to help look for my daughter. When I got home I rang up to order one."*  
Ruth.

Ordering is easy! Simply fill out one order form per child. If you would like more than one card per child (i.e. for grand parents and other parent) please attach a separate sheet of paper with the details of additional contact details.

An important part of an ID card is a photograph, so please attach a photograph with each order.

Please return all orders with payment and a photograph to 19 Chatham Rd, Canterbury, Vic, 3126.

SOPS, a computer system developed in Australia by ChildSafe ID, is a world first. Using the latest internet technologies SOPS enables secure instant access to your child's photo which removes critical wasted time traditionally involved in finding a large recent photo, allowing other people to start helping locate your child faster. Use of SOPS is optional.
